THE SOLUTION

FROGTRUST RUNS ON COMMERCIAL MOBILE DEVICES.

THE USERS FLEET IS MANAGED REMOTELY AND SECURELY THROUGH A WEB PORTAL.

FROGTRUST IS USED TOTALLY INDEPENDENTLY.

FROGTRUST operates on many mobile devices:

- iPhone 4S, 5, 5S, 6, 6S, 6S+ or iPad 2, 3 from iOS8 version.
- Android smartphones

What does FrogTrust offer ?

- **Communication** on Wi-Fi, 3G, 3G+, 4G networks.
- **Permanent call reception even if the application is not launched.**
- **Activity notification** enabling you to check the availability of callers inside the network.
- **Automatic updates of dedicated telephone directory**, following subscriber hierarchy and rights attribution defined by client.
- **The system allows external contacts** to enable network members to communicate with users from other organizations attached to the Control Center, based on a strict invitations process.
- **Fast download, installation and upgrades.**

Who is FrogTrust for ?

FROGTRUST is mainly dedicated to managers and staff aware of potential risks and concerned with the security of their sensitive information.

- Decision makers
- Staff on foreign assignment
- Research and development teams
- Trusted staff or partners

Security / Performance

- **Voice, video and text messages confidentiality guaranteed through proven authentication and cypher protocols (TLS, Diffie Hellman, SRTP, ZRTP).**
- **Exceptional sound quality.**
- **FROGTRUST is submitted to export regulations**

FROGTRUST is designed and built in France, which guarantees the solution over the long term.
